

BY PETER VIDAL

LJIRA (Sep 24 - Oct 23)
 Certain people may be envious of you. Do you think they have good reason to be a little jealous? It definitely looks as if your romantic stars are shining brighter than theirs. What you need, though, is the confidence to make the first move.

SCORPIO (Oct 24 - Nov 23)
 Nobody can pull the wool over your eyes or convince you that the truth is other than it seems. You have an eye for events at home and in the family that few people can match, so take command now. If you don't give the orders then someone else surely will.

SAGITTARIUS (Nov 24 - Dec 23)

♏ Sometimes, what you now consider to be minor disagreements could well become a major dispute, but perhaps not because of anything you have said or done. You may receive support from brothers or sisters, or from friends who you treat like part of the family.

CAPRICORN (Dec 21 - Jan 20)
Sometimes important plans,

arrangements, have to be abandoned, and there is nothing that can be done to salvage them. This is the worst-case scenario. If you have come through unscathed you are lucky. But, if your plans have come unstuck, then you need an alternative.

AQUARIUS (Jan 21 - Feb 19)
There is a great deal

PISCES (Feb 20 - Mar 20) Try not to press others to reveal

more than they know. If you pry too far, you never know what you will find, and it is safer to give partners time to compose themselves. Even a major upheaval at home could be to your advantage, especially if close friends come round in your way of thinking.
