9. Approval given by GUVNL in respect of earlier tender of PM KUSUM-C FLS scheme :-

It is to inform that in respect of earlier PM KUSUM scheme FLS tender of TN-03, TN-04, TN-05, TN-06, TN-07 and TN-08, a proposal was sent to GUVNL to give consent to file tariff petition vide letter no.PGVCL / DSM/ KUSUM-C/ FLS/802, dtd.10-05-2023. In this regard, vide GUVNL letter vide GUVNL/ Tech/ Solar cell/PM-KUSUM-C/FLS/1113, dtd.22-06-2023, it was informed as under;

"same was placed before the GUVNL board in Board meeting dated 06-06-2023.

In above regard, the Board discussed and decided as under;

1. *PGVCL shall issue Letter of Intent (LoI) to those bidders who have quoted tariff up to Rs.3.00 per unit within 3 days and seek the acknowledgement for the same as per Bid documents.*
2. *Thereafter, PGVCL shall seek consent of all other bidders who have qualified under bucket filling mechanism as per bid documents and quoted tariff in excess of Rs.3.00 per unit to agree for tariff of Rs.3.00 per unit. Based on consents, PGVCL may issue LoI to theses bidders and seek acknowledgment for the same.*
3. *PGVCL shall immediately take above actions and inform the same to GUVNL along with quantum of Power for which LoI are issued.*

This is for further appropriate actions after observing all the formalities."

In view of above and further clarification from GUVNL vide GUVNL/ Tech/Solar cell/ PM-KUSUM-C/FLS/1173, Dtd.03-07-2023 and GUVNL/Tech/ Solar cell/ PM-KUSUM-C/ FLS /1245, dtd.15-07-2023, PGVCL have issued LoI and subsequently filed tariff petition vide petition no.2252 and 2253 of 2023 which is also approved on dtd.20-12-2023 and LoA is also issued.

10. Provision as per RFS for allocation of solar capacity to be considered for issue of LoI: -

As per the provision of RFS, selection of successful bidder and capacity allocation is as under;

7.3 Selection of Successful Bidders and capacity allocation

7.3.1 The lowest quoting bidder in e-reverse auction will be allotted full bided capacity and then, next higher bidder will be allotted it's bided capacity and so on, till the total capacity i.e. notified capacity for respective sub-station is exhausted.

7.3.2 In case of the last selected bidder, if the balance project capacity is less than the notified project capacity mentioned by such bidder, then the balance capacity shall be awarded to the bidder till the total notified capacity is exhausted subject to a minimum allocation of 0.5 MW. Provided that, in case of allocation partial capacity (i.e. balance capacity till the total notified capacity is exhausted) offered to the last Bidder after completion of the e-reverse auction is lower than 50% of the total quoted capacity by such Bidder, the Bidder shall have an option to refuse such offered partial capacity within 7 days of issuance of Letter of Intent and the BG against EMD submitted by such Bidder shall be returned along with those of the unsuccessful Bidders

Further, in case the partial capacity offered is greater than or equal to 50% of the total quoted capacity by such Bidder, then it shall be mandatory for the last Bidder to accept such partial capacity offered against its quoted capacity, subject to the total cumulative capacity awarded after e-RA to the successful Bidders not exceeding notified capacity for respective sub-station. In case the last Bidder refuses to accept such partial capacity offered by PGVCL, the Bank Guarantee against EMD submitted by such Bidder shall be encashed by PGVCL.

In view of above, it is to inform that for the plants having more than one bid, based on above condition, LoI is required to be issued to the L-1 bidder as per full bidded capacity and the tariff rate as decided by the competent authority. Then after, from that bidder acceptance / consent is required to be collected for the given plant capacity and acceptance of counter offered tariff rate. On receipt of such confirmation only, subsequent bidder can be issued LoI with balance project capacity till the total notified capacity for respective sub-station is exhausted along with the price matching with L-1 bidder rate.

Above process was carried out as per the approval given by the GUVNL as above and it is observed that substantial time was required to take up each bidder under the plant as per the bucket filling mechanism provision of the tender. It is also observed that many a times bidders are not able to submit timely response for acceptance of the LoI and hence issue of LoI to subsequent ranked bidder under the same plant is delayed in time frame.

In earlier tenders, there were 78 nos of plants having multiple bids under bucket filling mechanism having bidders ranging from two to eight nos of bidders in a single plant. Thus bucket filling mechanism took substantial time of about 39 days (from dtd.30.06.2023 to dtd.08.08.2023) to complete.

Status of TN-09 bidders having nos of bids for a given plant participated by the bidder are as under;

94J

Sr No	Bidder Rank after e-RA	Total bids	Remark
1	RL-1	56	Recommend to issue LoI
2	RL-2	56	Recommend to issue counter offer at the same time to all these bidders at the price of L-1 bidder as above for a given plant
3	RL-3	33	
4	RL-4	21	
5	RL-5	14	
6	RL-6	2	
7	Single Bid	54	Recommend to issue LoI
Grand Total		236	

To expedite bucket filling mechanism process, following is recommended to consider;

1. **If baseline price is considered based on earlier GUVNL approval, we may issue LoI to the bids having price up to Rs.3.00/kwh to the L-1 bidder as per the overall offered price at the end of completion of e-reverse auction for the plant where more than one bid is received.**

2. **Similarly, considering baseline price, we may issue LoI to the bids having price up to Rs.3.00/kwh for the plants where only one bid is received.**

3. **At the price of L-1 bidder for a given plant, we may issue Letter of counter offer to all the remaining bidders. For clarification regarding available MW to the bidder as per ranking and bucket filling mechanism, we may clearly inform each bidder so as to expedite the bucket filling mechanism process. Based on the consent received for acceptance of rate, we may issue LoI as per the bucket filling mechanism.**

All the letters under reference along with plant wise bidder wise quoted rate, rates and ranking of bidder's for the plants having multiple bid as per status of e-reverse auction is attached here with.

In view of above, the matter is put up here with to deliberate and decide for:-

1. **Consideration of base line price as decided by the competent authority.**

2. **At the decided baseline price, to issue LoI to the bids having price up to baseline price, to the L-1 bidder as per the overall offered price at the end of completion of e-reverse auction for the plant where more than one bid is received.**

3. **At the price of L-1 bidder for a given plant, we may issue Letter of counter offer to all the remaining eligible bidders in the plant. For clarification regarding available MW to the bidder as per ranking and bucket filling mechanism, we may clearly inform each bidder so as to expedite the bucket filling mechanism process. Based on the consent received for acceptance of rate, we may issue LoI as per the bucket filling mechanism.**

4. **In case plants having single bid, we may issue LoI at the quoted price of the bidder if the price is less or equal to the base line price. In case, if the bidder's quoted price is higher than the base line price, we may issue LoI with counter offer at the baseline price for the offered MW capacity.**

COMPETENT AUTHORITY	Board of PGVCL

1. **PREAMBLE :**

On dtd.22-07-2019, Ministry of New and Renewable Energy (MNRE) has issued guideline for implementation of PM KUSUM Scheme. Then after On 04 December 2020, MNRE has further introduced and issued guidelines for implementation of Feeder Level Solarization(FLS) under Component-C of PM-KUSUM Scheme. Under the scheme, agriculture feeders already segregated or, feeders having major load for agriculture may be solarized using installation of grid connected solar power plant to cater the annual power requirement of feeder(s). This will lead to lower cost both in terms of lower capital cost and cost of power.

As per MNRE guidelines for feeder level solarization, for installation of feeder level solar power plants through RESCO model, the SPGs will be selected on the basis of lowest tariff offered for supply of required solar power for a period of 25 years. The developer will get CFA @ 30% of the estimated cost of installation of solar power plant i.e. Rs. 1.05 Cr/MW (30% of Rs. 3.5 Cr/MW).

The Feeder level Solarization under PM-KUSUM Scheme is helpful to provide day time power to the farmers as envisaged by the State Government under the KSY Scheme.

Brief Highlights of the Guidelines for the RESCO mode is as under:

Sr. No.	Particular	RESCO Mode
1	**Installation of the Solar plant by**	The Developers will be selected on the basis of lowest tariff offered for supply of required solar power for a period of 25 years, through a competitive bidding.
2	**MNRE's CFA**	The developer will get CFA @ 30% of the estimated cost of installation of solar power plant i.e. Rs. 1.05 Cr/MW (30% of Rs. 3.5 Cr/MW).
3	**Limit of CFA**	Under the Scheme solarisation of pumps of any capacity is allowed, however, in case of pumps of capacity above 7.5 HP, the CFA will be limited to solar capacity up to 7.5 HP Ag.pumps.

Based on technical feasibility and calculation of solar plant capacity considering average annual consumption of last three years, up to 7.5HP Ag.connections are considered and sub-stations along with notified capacity were published for participation of the bidder. Against each notified sub-station, bidders are required to quote in on-line mode, their lowest levelized tariff in Rupees per kWh for selling the power generated against the bid capacity of notified solar power plant under this PM KUSUM-C FLS scheme, to PGVCL for 25 years from the date of CoD (Commercial Operation Date). In case of more than 1 bid received for any sub-station, there is a provision of online e-reverse auction in e-auction portal of n-procure.
9	**System Specifications and Quality Control**	All components used for installation of solar power plants shall conform to applicable BIS / MNRE specifications and follow quality control guidelines issued by MNRE. It will be mandatory to use domestically manufactured Solar PV cell, domestically manufactured solar PV modules with solar PV modules from ALMM only. Further, the relaxation given by MNRE will be applicable as under: **Solar PV cell :** Also, as per MNRE OM 32/645/2017-SPV Division dtd.11-09-2023, MNRE has issued extension of waiver of domestic content requirement (DCR) for solar cells under component-C of PM-KUSUM scheme wherein provision of requirement of indigenous solar cells (DCR) under component C(FLS) of the PM KUSUM scheme has been relaxed for projects awarded on or before dated.31.03.2024. **Solar PV Module and ALMM requirement:** The technology adopted by SPG shall be in accordance with MNRE's Approved Models and Manufacturers of Solar PV Modules having PV Module from ALMM only.

		As per amendment by MNRE vide Office Memorandum No: 283/16/2023-GRID SOLAR, Dtd.10.03.2023 (Requirements for Compulsory Registration) Order, 2019, ALMM order is held in abeyance for one financial year, i.e. FY 2023-24. Thus Projects commissioned by 31.03.2024 will be exempted from the requirement of procuring Solar PV modules from ALMM. However, Order/clarifications issued by MNRE in this regard from time to time will be applicable.
10	**Project completion time**	The maximum timeline allowed for commissioning of solar power plant by RESCO Developer will be nine months from the date of signing of PPA.
11	**Land**	The SPG shall identify the project land, preferably within the distance of five KM radius of the sub-station. The SPG shall ensure submission of final land documents for the entire required land, within 9 months from the date of signing PPA with DISCOM
12	**CFA release time**	SPG to get CFA @ Rs. 1.05 Cr per MW subject to installation & commissioning of project in line with MNRE stipulated timeline and requirement. The release of CFA to the selected bidder shall be subjected to release of CFA from MNRE to PGVCL.
13	**PBG against performance**	Performance Bank Guarantee **(PBG) of Rs. 5 Lakh / MW** basis is required to be submitted to PGVCL by the successful bidder upon issuance of Letter of Award by PGVCL towards payment security mechanism for recovery of liquidated damages for delay in commissioning of solar power project beyond scheduled commercial operation date. The PBG will be returned to the SPG after successful commissioning of solar power plant within scheduled commercial operation date.
14	**Liquidated Damage**	In case any SPG fails to achieve the commercial operation of the project by Schedule Commercial Operation Date which shall not be later than 9 months from the date of signing of PPA, PGVCL shall encash the Performance Bank Guarantee (PBG) as liquidated damages (LD) in the following manner: Delay up to two months: LD equal to the PBG on per day basis. The no. of days in"month" for the LD calculation shall be considered as 30. **In case the commissioning of the solar power plant is delayed beyond two months: The complete PBG amount shall be encashed.**
15	**Water saving and enhancing farmers' income**	The DISCOMs shall incentivise farmers for consuming power less than benchmark consumption. Such saving of power shall be treated as surplus power injected by farmers and they will be paid by DISCOMs against this saved power at pre-determined tariff.
16	**RMS**	It will be mandatory for DISCOMs to monitor solar power generation and performance of the solar power plant through online system. The online data will be integrated with central monitoring portal which will extract data from the State portals for monitoring of the scheme
