16. Previous approvals from GUVNL and Approval for Adoption of tariff by GERC :-

It is to inform that in respect of earlier PM KUSUM scheme FLS tender of TN-03, TN-04, TN-05, TN-06, TN-07 and TN-08, Rates were received at the end of e-reverse auction were ranging from Rs.2.87 per unit to Rs.5.00 per unit. Accordingly, a proposal was sent to GUVNL to give consent to file tariff petition vide letter no.PGVCL / DSM/ KUSUM-C/ FLS/802, dtd.10-05-2023. In this regard, GUVNL vide letter No. GUVNL/ Tech/ Solar cell/PM-KUSUM-C/FLS/1113, dtd.22-06-2023, informed that GUVNL had put up the matter in the Board meeting and as decided in the Board meeting, guideline was issued as under;

1) *PGVCL shall issue Letter of Intent (LoI) to those bidders who have quoted tariff up to Rs.3.00 per unit within 3 days and seek the acknowledgement for the same as per Bid documents.*
2) *Thereafter, PGVCL shall seek consent of all other bidders who have qualified under bucket filling mechanism as per bid documents and quoted tariff in excess of Rs.3.00 per unit to agree for tariff of Rs.3.00 per unit. Based on consents, PGVCL may issue LoI to theses bidders and seek acknowledgment for the same.*

Accordingly, PGVCL had issued LoI and Subsequently, based on the acceptance of the LoI, PGVCL had filed the tariff petition vide petition no.2252 and 2253 of 2023 before the Hon'ble GERC for adoption of tariff up to Rs. 3/- per unit, which has been approved vide GERC Order dtd.20-12-2023 and accordingly, LoAs have been issued and upon submission of PBGs, PGVCL is in the process of execution of PPA.

17. Tariff Rate proposed to be accepted with justification:

Tariff rate up to Rs. 3 /- per unit is proposed for awarding Letter of Intent (LoI) to the selected bidders for procurement of solar power under PM KUSUM Component - C scheme considering the following points:-

- The discovery of tariff in tariff based competitive bidding process for MW scaled solar projects is not comparable for the tariff discovered for solar power from distributed small scale solar power projects.

- Moreover, Hon'ble MERC in its latest order dated 11.05.2023 has approved pre-fixed levelized tariff of Rs. 3.30/unit for procurement of solar power from the projects to be set up under PM KUSUM scheme Component A wherein subsidy support of Rs. 1.05 / MW is not available from Central Government.

- Further, Hon'ble MERC in its Order dated 24.05.2023 has approved pre-fixed levelized tariff of Rs. 3.10 /unit for procurement of solar power from projects to be established of 117.5 MW capacity under PM KUSUM scheme Component C.

- Further, Hon'ble GERC in its Order dated 20.12.2023 has approved pre-fixed levelized tariff up to Rs. 3.00 /unit for procurement of solar power from projects to be established of 479 MW capacity under PM KUSUM scheme Component C against the petion no. 2252 and 2253 file by PGVCL recently.

- **In this tender, Out of the total eligible bidding capacity of 302.5 MW, 171.5 MW capacity (i.e. around 57%) is covered within the rate of Rs. 3 /unit. Thus, around 171.5 MW distributed solar capacity at compatible rate will be available to DISCOMs helping towards RPO fulfillment as well as catering Ag demand appropriately under KSY scheme.**

In view of the same, the rate of Rs. 3 / unit is proposed for offering LoI to selected bidders for procurement of solar power from the projects to be established under Component C (Feeder Level Solarization) of PM KUSUM scheme.

17. Proposal:

Considering the Consent received from GUVNL for the previous tenders for accepting the bids having tariff rate up to Rs. 3/- per unit and subsequently approval of adoption of tariff in similar tenders in PM-KUSUM-C-FLS scheme by Hon'ble GERC and looking to the importance and urgency of the LOA to be placed before March 2024 by getting approval from the Hon'ble GERC for adoption of tariff, following proposal is submitted to the Board for its deliberation and approval: -

1) To issue LoI for the Solar plants Substations against which the tariff is received up to Rs. 3/- per unit.
2) To issue LoI to e-reverse auction L-1 bidders of 56 plants having more than one bid, at the rate of e-reverse auction L-1 rate of the plant OR Rs.3/- per unit , whichever is less.
3) To issue counter offer to other than "e-reverse auction L-1 bidders" of 56 plants having more than one bid, at the rate of "e-reverse auction L1 bidder's rate" of the plant OR the Rs. 3/- per unit, whichever is less for the remaining capacity in the bucket of the respective bid. On receipt of confirmation of acceptance of counter offered price, we may issue LoI as per the bucket filling mechanism till the notified capacity of the plants is exhausted as per RFS.
4) To issue LoI to bidders of 54 plants having single bid, at the offered rate OR Rs. 3/- per Unit, whichever is less. And for the remaining such plant where, Rate is higher than Rs 3/-, Consent to be asked by counter offer of Rs.3/- per unit.

After completing the LoI process, a petition to be filed before the Hon'ble GERC for adoption and approval of the tariff at the earliest.

17.Delibrate and Decision:

The Board is requested to approve the proposal as mentioned above.

The Board also took note of the importance and urgency of the LOA to be placed before March 2024 by getting approval from the Hon'ble GERC for adoption of tariff.

The Board considered the proposal and resolved that LoI to be placed to various bidders in various plants as under: -

1) To issue LoI for the Solar plants Substations against which the tariff is received up to Rs. 3/- per unit.
2) To issue LoI to e-reverse auction L-1 bidders of 56 plants having more than one bid, at the rate of e-reverse auction L-1 rate of the plant OR Rs.3/- per unit , whichever is less.
3) To issue counter offer to other than "e-reverse auction L-1 bidders" of 56 plants having more than one bid, at the rate of "e-reverse auction L1 bidder's rate" of the plant OR the Rs. 3/- per unit, whichever is less for the remaining capacity in the bucket of the respective bid. On receipt of confirmation of acceptance of counter offered price, we may issue LoI as per the bucket filling mechanism till the notified capacity of the plants is exhausted as per RFS.
4) To issue LoI to bidders of 54 plants having single bid, at the offered rate OR Rs. 3/- per Unit, whichever is less. And for the remaining such plant where, Rate is higher than Rs 3/-, Consent to be asked by counter offer of Rs.3/- per unit.

Further Resolved that, after completing the LoI process, a petition to be filed before the Hon'ble GERC for adoption and approval of the tariff at the earliest.

Further Resolved that, the CE(Project) is authorized to issue the LOAs and sign the PPAs after approval of adoption of tariff by the Hon'ble Commission.

Thus Projects commissioned by 31.03.2024 will be exempted from the requirement of procuring Solar PV modules from ALMM. However, Order/clarifications issued by MNRE in this regard from time to time will be applicable.

k) All the mandatory standards issued by MNRE and / or BIS regarding project equipments and material shall be followed.

m) To procure start up power required for the plant from PGVCL.

n) The SPG shall ensure that he shall not sell power to any other buyer except the PGVCL during the tenure of this PPA. At any point of time during the tenure of PPA, if it is found that the SPG has sold the solar power produce from the contracted solar plant strict legal action will be taken again the SPG, including stop deal or black list from Participation in future tender of MNRE in Gujarat and the SPG shall require to refund the proportionate CFA granted for the project by MNRE to PGVCL.

For the recovery of the proportionate CFA, the CFA granted by MNRE for the project will be divided by 25 years to arrive at per year CFA. If any event of sell of power is found at a particular time, the amount to be recovered from the SPG shall be the remaining period of PPA after the event date multiply by per year CFA.

The recovery of the proportionate CFA will be made through the payments of invoices or through remedies taken in accordance with applicable laws. 4.2 Purchase and sale of Contracted Capacity

4.2.1 Subject to the terms and conditions of this Agreement, the SPG undertakes to sell to PGVCL and PGVCL undertakes to pay Tariff for all the energy supplied at the Delivery Point corresponding to the Contracted Capacity.

4.3 Right to Contracted Capacity & Energy

4.3.1 PGVCL, in any Contract Year shall not be obliged to purchase any additional energy from the SPG beyond the contract capacity. If for any Contract Year except for the first year of operation, it is found that the SPG has not been able to generate and supply minimum energy of _____**KWH (Units) (corresponding to 19% minimum CUF) for** _____**Feeder/substation level Solar plant** during the term of the agreement except force majeure conditions as defined in the Article -11__ of the PPA. **The non-compliance by SPG shall make the SPG liable to pay the compensation.** PGVCL shall not be obliged to purchase energy in excess of maximum CUF of 30% during any contract year. If PGVCL decides to purchase the excess energy beyond CUF of 30%, the payments for such excess energy shall be made at 75% of the PPA tariff. For the first year of operation, the above limits shall be considered on pro-rata basis. The lower limit will, however be relaxable by PGVCL to the extent of grid non-availability attributable of PGVCL / GETCO.

4.3.2 This compensation (as mentioned in above para 4.3.1) shall be applied to the amount of shortfall in generation during the Contract Year. The amount of such penalty would ensure that the PGVCL is offset for all potential costs associated with low generation and supply of power under the PPA. **The compensation payable to PGVCL by the SPG shall be at 25% (twenty-five percent) of PPA tariff on the shortfall in energy.** This compensation shall not be applicable in events of Force Majeure identified under PPA.

4.3.3 At any point of time block, the peak of capacity shall not reach higher than the contracted capacity at the point where power is injected in the grid. The SPG shall forego the excess generation and reduce the output to the contract capacity and shall be required to pay the penalty/charges, **25% of Tariff rate + applicable taxes** in case of failure to do so. The SPG shall install adequate protection equipment at the interconnection point to avoid excess energy feeding into the grid and failure to do so shall entitle DISCOM to not pay for the additional energy over and above the contracted capacity.

4.4 Extensions of Time

4.4.1 In the event that the SPG is prevented from performing its obligations under Article 4.1 by the Scheduled Commissioning Date due to:

(a) any PGVCL Event of Default; or

(b) Force Majeure Events affecting PGVCL, or

(c) Force Majeure Events affecting the SPG,

the Scheduled Commissioning Date and the Expiry Date shall be deferred, subject toArticle 4.4.4, for a reasonable period but not less than 'day for day'

1446

basis, to permit the SPG or DISCOM through the use of due diligence, to overcome the effects of the Force Majeure Events affecting the SPG or PGVCL, or till such time such Event of Default is rectified by PGVCL if delay is attributable to PGVCL.

4.4.2 If the Parties have not agreed, within thirty (30) days after the affected Party's performance has ceased to be exist by the relevant circumstance on the time period by which the Scheduled Commissioning Date or the Expiry Date should be deferred, any Party may raise the Dispute to be resolved in accordance with Article 16.

4.4.3 As a result of such extension, the newly determined Scheduled Commissioning Date and newly determined Expiry Date shall be deemed to be the Scheduled Commissioning Date and the Expiry Date for the purposes of this Agreement.

4.4.4 Notwithstanding anything to the contrary contained in this Agreement, any extension of the Scheduled Commissioning Date arising due to any reason envisaged in this Agreement shall not be allowed beyond the date pursuant to Article 4.5.2.

4.4.5 Delay in commissioning of the project beyond the scheduled commissioning date for reasons other than those specified in Article 4.4.1 shall be an event of default on part of the SPG and shall be subject to the consequences specified in the Article 4.5.

4.5 Liquidated Damages not amounting to penalty for delay in Commissioning

4.5.1 If the SPG is unable to commission the Project by the Scheduled Commissioning Date other than for the reasons specified in Article 4.4.1, the SPG shall pay to PGVCL, damages for the delay in such commissioning and making the Contracted Capacity available for dispatch by the Scheduled Commissioning Date as per following:

4.5.2 In case any SPG fails to achieve this milestone, PGVCL shall encash the Performance Bank Guarantee (PBG) as liquidated damages (LD) in the following manner:

Delay up to two months: LD equal to the PBG on per day basis. The no. of days

In "month" for the LD calculation shall be considered as 30.

In case the commissioning of the solar power plant is delayed over two months: The complete PBG amount shall be encashed and DISCOM shall have right to terminate the PPA. The decision of MNRE regarding release of CFA shall be binding and to the account of SPG.

In case of delays of plant commissioning due to Force Majeure reasons, the Procurer / PGVCL after having been satisfied with documentary evidences produced by the SPG for the purpose, can extend the time for commissioning date without any financial implications on the SPG.

4.5.3 The SPG further acknowledge that the amount of the liquidated damages fixed is genuine and reasonable pre-estimate of the damages that may be suffered by PGVCL.

1647

4.6 System Specifications and Quality Control

4.6.1 All components used for installation of solar power plants shall conform to applicable BIS / MNRE specifications and follow quality control guidelines issued by MNRE.

It will be mandatory to use domestically manufactured modules only.

4.7.2 The third party may verify the construction works/operation of the Power Project being carried out by the SPG and if it is found that the construction works/operation of the Power Project is not as per the Prudent Utility Practices, it may seek clarifications from SPG or require the works to be stopped or to comply with the instructions of such third party.

4.8 Breach of Obligations

4.8.1 The Parties herein agree that during the subsistence of this Agreement, subject to PGVCL being in compliance of its obligations & undertakings under this Agreement, the SPG would have no right to negotiate or enter into any dialogue with any third party for the sale of Contracted Capacity of power which is the subject matter of this Agreement. It is the specific understanding between the Parties that such bar will apply throughout the entire term of this Agreement.

4.9 Generation compensation for Off-take constraints

4.9.1 Generation Compensation in offtake constraints due to Grid Unavailability: During the operation of the plant, PGVCL shall endeavor to ensure 95% of grid availability in a contract year. However, there can be some periods where the Project can generate power but due to temporary transmission unavailability, the power is not evacuated, for reasons not attributable to the SPG. In such cases, subject to the submission of documentary evidences from the competent authority, the generation compensation shall be restricted to the following and there shall be no other claim, directly or indirectly against PGVCL:

Duration of Grid unavailability	***Provision* for Generation Compensation**
Grid unavailability in excess of	***Generation Loss = [(Average Generation per hour***

5% in a contract year as defined in the PPA(only period from 8 am to 6 pm to be counted):	***during the Contract Year) × (number of hours of grid unavailability during the Contract Year)]*** Where, Average Generation per hour during the Contract Year (kWh) = Total generation in the Contract Year (kWh) ÷ Total hours of generation in the Contract Year.

The excess generation beyond 19% CUF by the SPG equal to this generation loss shall be procured by PGVCL at the PPA tariff so as to offset this loss in the succeeding 3 (three) Contract Years and no further compensation shall be made by PGVCL to SPG.

4.9.2 Offtake constraints due to Backdown: The SPG shall follow the forecasting and scheduling process as per the regulations in this regard by the Appropriate Commission. In the eventuality of backdown, subject to the submission of documentary evidences from the competent authority, the SPG shall be eligible for a minimum generation compensation, from PGVCL, restricted to the following and there shall be no other claim, directly or indirectly against PGVCL.

Duration **of Backdown**	***Provision* for Generation Compensation**
Hours of Backdown during a monthly billing cycle.	***Mininum Generation Compensation = 100% of [(Average Generation per hour during the month) X (number of backdown hours during the month)] X PPA tariff*** Where, Average Generation per hour during the month (kWh) = Total generation in the month (kWh) ÷ Total hours of generation in the month

The SPG shall not be eligible for any compensation in case the Backdown is on account of events like consideration of grid security or safety of any equipment or personnel or other such conditions. The Generation Compensation shall be paid as part of the energy bill for the successive month after JMR.

ARTICLE 5: SYNCHRONISATION, COMMISSIONING AND COMMERCIALOPERATION

5.1 Synchronization, Commissioning and Commercial Operation
