Tender No: MGVCL/Project/DSM/PM-KUSUM-C-FLS/TN-7 (Tender ID: 32807) was invited through n-procure site <https://mgvcl.nprocure.com> on dt.03.01.2024 for Request for Selection of SPG through 'On-line' mode for purchase of power from solar power Procurements through competitive bidding process (followed by reverse e-auction) for Solarization of 11kv Agricultural feeders emanating from selected 66/11kv Sub-stations in the supply area of MGVCL under Component-C of PM-KUSUM Scheme for Feeder level Solarization through RESCO Mode.

Technical Bids of 41 bidders were opened on 07/06/2024. As per techno-commercial scrutiny report, out of 41nos. of bidders, 7nos. of bidders are disqualified and 34nos. of bidders are qualified for opening of price bid. The price bid opened on dt.22/07/2024 for the aforesaid tender.

As there is a provision of "Reverse auction" as per Section-I : Bid opening & Evaluation cl.no.1.7 Financial Evaluation after opening of price bid for the aforesaid tender, it is required to decide the decrement value for "Reverse action". A tentative Schedule of Reverse auction is attached herewith as per Annexure-A (based on the price bid quoted by bidders) for selection of successful bidders and capacity allocation.

As per Section-I: Bid Evaluation cl.no.1.7 (7.2) Reverse auction, the above mentioned 34nos. of bidders will be able to login into <https://e-auction.nprocure.com/> for reverse auction 15 minutes before the start time of reverse auction.

(i) During 15 minutes prior to start of reverse auction process, the respective tariff along with the total Procurement capacity of the bidder for respective sub-station shall be displayed on its window.

(ii) The minimum decrement value for tariff shall be ₹ 0.01 per kWh. The bidder can mention its revised tariff which has to be at least 01 (one) paisa less than its current tariff.

(iii) Bidders can only quote any value lower than their previous quoted tariff taking into consideration of the minimum decrement value mentioned in previous Section. However, at any stage, increase in tariff will not be permissible. Bidders can improve their ranking by quoting the tariff lower than their last quoted tariff.

(iv) During Reverse Auction, the bidder shall not have the option of changing the total Project capacity while quoting tariff during reverse auction.

(v) In the bidder's bidding window, the following information can be viewed by the bidder:

1. Its tariff as their initial start price and there after last quoted tariff along with Project capacity bided by the bidder;

2. The list of all the bidders with their following details:

Pseudo Identity, last quoted tariff and bided capacity

(vi) The initial auction period will be of 30 (thirty) minutes with a provision of auto extension by 5 (five) minutes from the scheduled/ extended closing time. Such auto extension shall be effected if by way of reduction in tariff, a Bidder causes a change in its zonal placement at that instant. The 'zones' are as defined below:

(a) Green Zone: This zone consists of the Bidders who may be allocated their full quoted Project capacity if the auction is closed at that instant.

(b) Yellow Zone: This zone consists of the Bidders who may be allocated a part of their full quoted Project capacity if the auction is closed at that instant.

(c) Red Zone: This zone consists of the Bidders who will not be awarded their quoted Project capacity if the auction is closed at that instant.

If no such change as described above is effected during the last 5 minutes of auction period or extended auction period, then the reverse auction process will automatically get closed.

Put up for approval please.

PROPOSAL TO PLACE LOI (LETTER OF INTENT) TO VARIOUS BIDDERS AND TO FILE PETITION FOR ADOPTION OF TARIFF DISCOVERED UNDER TARIFF BASED COMPETITIVE BIDDING PROCESS CONDUCTED BY MGVCL VIDE RFS NO. MGVCL/PROJECT/DSM/PM-KUSUM-C-FLS/TN-7, DTD.03/01/2024 BEFORE THE GERC FOR PURCHASE OF POWER FROM SOLAR POWER PROJECTS THROUGH COMPETITIVE BIDDING PROCESS (FOLLOWED BY REVERSE E-AUCTION) FOR SOLARIZATION OF 11KV AGRICULTURAL FEEDERS EMANATING FROM SELECTED 66/11KV SUB-STATIONS IN THE SUPPLY AREA OF MGVCL UNDER PM-KUSUM SCHEME FEEDER LEVEL SOLARIZATION THROUGH RESCO MODE.

The proposal regarding placing of LOI to various bidders and to file petition for adoption of tariff under PM-KUSUM Scheme Feeder Level Solarization through RESCO mode, was placed before the Board for consideration and decision.

It was briefed that GUVNL vide Letter dated 23-01-2024 has allotted target of 5000 Ag. Pump-sets and also authorized MGVCL for inviting request for selection (RFS) from solar power generator (SPG) for feeder level solarization under Component-C of PM-KUSUM Scheme under RESCO mode. Accordingly, MGVCL has invited RFS on 03.01.2024

Summary of Feeders covered for Solarization is as under-

No. of Solar plants against which bids invited	No. of 11 KV Ag. Dom Feeders covered	No. of grid connected Ag. Consumers covered having contracted load up to 7.5 HP	Aggregate Notified Solar Capacity of all plants (MW) after round off
80	260	99740	134.5 MW

The Company has received participation of total 150 Nos. of bids in Tender No. TN-7 in online mode. Out of 150 bids, 135 bids found qualified during preliminary bid evaluation. As per techno-commercial bid evaluation report, 14 Nos of bids were disqualified and 121 Nos. of bids were eligible for price bid evaluation. The online price bids were opened on e-bidding portal. Finally, 110 bids were found qualified for further Reverse Auction and 11 bids were found as single bid. The Board was briefed about the outcomes of e-Reverse Auction process.

The Board also deliberated on the reasons for receiving single bids in certain locations, citing factors such as area constraints and land availability.

The Board was informed that for the earlier PM KUSUM scheme FLS tender TN-06 (Tender ID: 582408), the e-reverse auction for one plant concluded with a final rate of ₹3.05 per unit. After this, MGVCL issued a Letter of Intent (LoI) and subsequently filed a tariff petition (petition no. 2267 of 2023) with the GERC on November 8, 2023, seeking approval for a tariff of up to ₹3.00 per unit. Approval from GERC is currently pending.

In this tender, out of the total eligible bidding capacity of 134.5 MW, 72.5 MW capacity (i.e. around 53.90%) is covered within the rate of Rs. 3.00 /unit. Thus, around 72.5 MW distributed solar capacity at compatible rate will be available to DISCOMs helping towards RPO fulfillment as well as catering Ag demand appropriately under KSY scheme. In view of this, the tariff rate up to Rs. 3.00 / unit is proposed for offering LoI to selected bidders for procurement of solar power from the projects to be established under Component C (Feeder Level Solarization) of PM KUSUM scheme.

P. Jangid (Director), Shri K. M. Shringarpure, Prof. Ajay Pandey, and Prof. S. Raman (Independent Directors).

The Board also took note of the importance and urgency of the LOA to be placed by getting approval from the Hon'ble GERC for adoption of tariff.
