2. Providing Earth Terminal at Existing Connections

In compliance to directive of the Commission, each connection has been released with Earth Terminal after January 2012. However, existing connections did not have earth terminal. The Commission has directed to provide earth terminal to all existing LT connections and accordingly, Discoms have provided all the existing LT connections with earth terminals.

3.4 STATUS IN THE CONTEXT OF TARIFF POLICY

3.4.1 Return on Equity:

The Tariff Policy envisages that SERCs should allow rate of return on equity keeping in view the assessment of overall risk and the prevalent cost of capital. The Commission allowed 14% RoE for all the utilities in the State.

Gujarat Electricity Regulatory Commission

3.4.2 Depreciation Rates:

As per the Tariff Policy, the Central Commission notified the rate of depreciation which is also applicable to Generation, Transmission, SLDC and Distribution Licensee including SEZs with appropriate modifications. The Commission will be considered the depreciation rates for the utilities in the truing up of FY 2022-23 as stated above.

3.4.3 FPPPA Charges:

The Tariff Policy notified by the Government of India provides for speedy recovery of uncontrollable costs i.e. incremental fuel and power purchase costs so that future consumers are not burdened with past costs.

Appellate Tribunal for Electricity (APTEL) also, in its order dated 11th November, 2011 in OP NO.1 of 2011, directed that every State Commission must have in place a mechanism for Fuel and Power Purchase cost as specified in Section 62(4) of the Act to compensate the distribution companies for the increase in cost of power procurement during the financial year.

Concept of recovery of Fuel and Power Purchase Adjustment (FPPPA) charges on quarterly basis is in place in the State for state-owned DISCOMs since 2004 and for TPL since 2007. The Commission had approved a formula for calculation of FPPPA charges for State owned DISCOMs in its order dated 24th June, 2004 and for TPL vide Order dated 31st July, 2007. In the Case No. 1309/2013 and 1313/2013 dated 29th October, 2013, the Commission revisited and modified the FPPPA formula for GUVNL and TPL as the old formula was not adequate to address the variation in purchase of energy quantity from different sources. Due to this a huge amount was remained unrecovered during the year and was reflecting as gap in the Truing up. Thus, to allow timely recovery of variation in power purchase cost, the Commission devised a more realistic FPPPA formula.

The Commission has directed distribution utilities to obtain approval of the commission if increase in FPPPA beyond ten (10) paise per kWh in a quarter compared to FPPPA charges in the previous quarter, prior to start billing to the consumers.

GUVNL on behalf of Four Stated Owned DISCOMs, TPL-D (Ahd. & Surat), TPL-D (Dahej) and MUL regularly submits the FPPPPA charge calculations along with supporting documents to

Gujarat Electricity Regulatory Commission

the Commission on quarterly basis. The Commission undertakes analysis of the submission made by the utilities and if there are any discrepancies or deviations from the original FPPPA order, necessary instructions are being passed on to the respective utility. Based on the Commission's instruction, required corrections are made in the FPPPA charge by the Utilities.

The FPPPA charges (Rs. /Unit) billed for the FY 2023-24 is shown in the below Table;
